***“Mellow Psychedelic Experimental Noize
for What Might Ever Be left Ov Your Soul
in These Modern Day Timez”***

Figure 3 Aural Into the Further Ep (2013) Inner Sleeve

Mellow psychedelic experimental noise formed out of the initial ashes of Omniman during the mild Canadian winter of 2009. Ov Moi Omm originally began as a vehicle for exploration. An exploration of experimental ideas; musical ideas that had been influenced by a variety of musical genres that can be found throughout the world. Sounds with chance and coincidence. Landscapes turn into soundscapes; the songs defy classic song structures and rely heavily upon "sound" collage.

Ov Moi Omm is a further vehicle (umbrella) for the musical exploration of the following acts: Omniman (II); Irama Gema; 10 Echo; Polyphony Più; Ihsan & the Cabinet of Dr. Caligari; Yellow Omm (a collaborative effort between Ov Moi Omm and Yellow Sunshine Microdot Happiness Band (YSMHB); Pulse Burst and Julia Felix. These acts can often appear alongside Ov Moi Omm and are definitely a part of the Ov Moi Omm universe and experience.
